24th July, 2019

Dear Johnny,

Geelong Harley-Davidson has a long standing and successful involvement in drag racing in Australia.

Your vision for a purpose built drag racing facility at Avalon is something we support and believe it would be well supported on the national calendar.

The economic impact of hosting events such as the Australian Nationals would be significant for Victoria, especially the Greater Geelong and Wyndham areas.

The flow on benefits to the local business communities and stimulus for new business opportunities in the motor/racing industry would also likely be substantial, and Avalon seems like an ideal location.

We wish you all the best with your endeavours and welcome you to keep in contact with us as you progress.

All the best,

Jacob Gleeson
General Manager
