Dear Dr Sam Shahin,

I would first like to congratulate you on your development of The Bend, I am eagerly waiting to race on the drag strip.

I have recently had the pleasure of speaking to your personal assistant and she was very professional and courteous. I am a passionate drag racer, and my current business revolves centrally around our sport of motor cycle drag racing. My son Lachlan is currently a professional drag racer of a Pro Stock motor cycle.

In Victoria, we currently do not have access to a track to run the Pro Stock Series Thunder 400. I am trying to change this. Victorian's need access to a track that is in great condition and easily accessible to a large number of individuals to both increase traction in the sport and to increase Victorian tourism and trade.

I am currently posting my plans on www.johnnyshogshop.com.au under Motivate Melbourne as well as Avalon 2020.

I am seeking both your advice and support as a company such as your would be a great benefit to achieve our overall plan of obtaining a ANDRA 1/3 mile drag strip.

If this is something that interests you, I am looking to arrange a public meeting of all interested parties to take place at St Albans Social Club on the night of the VDRC meeting. This will be the night before the Federal elections.

I look forward to hearing from you.

Kind Regards,
Johnny Ireland
